## ENGINEERING AND CONSTRUCTION COMPANIES

**AECOM Technology Corporation** – <https://www.aecom.com/>

We are a global network of experts working with clients, communities and colleagues to develop and implement innovative solutions to the world's most complex challenges. Delivering clean water and energy. Building iconic skyscrapers. Planning new cities. Restoring damaged environments. Connecting people and economies with roads, bridges, tunnels and transit systems. Designing parks where children play. Helping governments maintain stability and security. We connect expertise across services, markets, and geographies to deliver transformative outcomes. Worldwide, we design, build, finance, operate and manage projects and programs that unlock opportunities, protect our environment and improve people's lives. We are AECOM. Built to deliver a better world.

**Arcadis U.S. Inc.** – <https://www.arcadis.com/>

From climate change to rapid urbanization, our world is a more complex place. Whether it is maximizing space in cities or making wasteland habitable, we deliver exceptional and sustainable outcomes for our clients. Our people work collaboratively to create value through built and natural assets that work in harmony with their surroundings – from shopping centers in Shanghai to new rail systems in Doha and reducing air pollution in Los Angeles. Arcadis is the leading global Design & Consultancy firm for natural and built assets. Applying our deep market sector insights and collective design, consultancy, engineering, project and management services we work in partnership with our clients to deliver exceptional and sustainable outcomes throughout the lifecycle of their natural and built assets. We are 27,000 people active in over 70 countries that generate €3.3 billion in revenues.

**Black & Veatch Holding Company** – <https://www.bv.com/>

Black & Veatch is an employee-owned, global leader in building critical human infrastructure in Energy, Water, Telecommunications and Government Services. Since 1915, we have helped our clients improve the lives of people in over 100 countries through consulting, engineering, construction, operations and program management. Our revenues in 2016 were US \$3.2 billion.

**BCER Engineering, Inc.** – <https://bcer.com/>

BCER Engineering is a full-service firm offering engineering and design including construction and start-up services for commercial, institutional, industrial and governmental clients. Our principals have over 100 years of engineering work experience combined. We provide full-service in Mechanical Engineering, Electric Engineering, Life Safety Consulting, Fire Protection Engineering, Tenant Group, Technology Engineering, and Sustainable Design.

**Burns & McDonnell Engineering Company, Inc.** – <https://www.burnsmcd.com/>

We are a family of companies made up of more than 6,000 engineers, architects, construction professionals, scientists, consultants and entrepreneurs with offices across the U.S. and throughout the world. With a mission unchanged since 1898 — make our clients successful — we partner with you on the toughest challenges, constantly working to make the world an amazing place. As a 100% employee-owned firm ranking in the top leading firms for safety, each professional brings an ownership mentality to our projects. That means we think like owners, working through each challenge until it's resolved, exceeding our clients' goals.

**Farnsworth Group** – <http://www.f-w.com/>

Come take a look at Farnsworth Group and discover why our employees earned us the Great Place to Work certification! Farnsworth Group is a full-service engineering and architecture firm with nearly 450 employees located throughout a nationwide network of offices. Our market areas are many – from healthcare systems to new recreation areas; education facilities to commercial development; municipal infrastructure to military installations; and just about everything in between. Together, our engineers and architects collaborate to find solutions that result in our clients' success. As an employee-owned company, we take pride in the services we provide and value the relationships we have developed during our 100-year history. It's been our trait since our earliest days ... and continues today.

**Felsburg Holt & Ullevig** – <http://www.fhueng.com/>

Felsburg Holt & Ullevig (FHU) is a consulting firm specializing in transportation planning, traffic engineering, civil engineering design, water resource, and environmental services. Our philosophy is to provide high-quality professional services on a wide range of transportation and design projects, with an emphasis on developing creative, cost-effective and environmentally sensitive solutions.

**Harris Group, Inc.** – <http://harrisgroup.com/>

Harris Group is a multi-discipline engineering consulting firm with offices located throughout the United States. Founded in 1975 and headquartered in Seattle, Washington, we have a full-time staff of over 200 engineers, designers, project managers, and technical and business specialists. Our ability to provide a total project design solution as one organization — from inception through completion — is distinctive in the engineering industry. We establish long-term client relationships with exceptional project management and responsiveness from our skilled professional staff. Our engineers design some of the most complicated, performance-driven environments in the world. At Harris Group we say "Our difference is engineered." Our team is dedicated to ensuring that your project experience is of the highest quality in the industry.

**HDR** – <http://www.hdrinc.com/>

At HDR, we know work isn't only about whom you work for; it's also about what you do and how you do it. That's why we're committed to adding beauty and structure to everything we touch. We solve the world's most difficult design challenges, delivering striking yet practical solutions. We continually push the boundaries of what's possible, striving to make the world a better place for our clients and communities. We're proud to be ranked No. 24 on Forbes magazine's list of America's Best Large Employers for 2018. HDR is ranked No. 6 among the world's design firms, specializing in engineering, architecture, environmental and construction services, and we're the largest healthcare design firm. Led by the strength of our values and a culture shaped by employee ownership, we network with each other, build on each other's contributions, and collaborate together to make great things possible. When you join HDR, we give you a license to do the same. We help you take charge of your career, giving you multiple growth opportunities along the way.

**Jacobs Engineering Group** – <http://www.jacobs.com/>

Jacobs Engineering Group Inc., is an international engineering, architecture, and construction firm with offices located around the world. As a publicly traded company with 60,000 employees and 2011 revenues of more than \$10 billion, Jacobs offers support to industrial, commercial, and government clients across multiple markets. In 2010, Jacobs was named by Forbes as one of America's 100 Most Trustworthy Companies. Annual revenues have made Jacobs Engineering a Fortune 500 Company.

**Martin/Martin Consulting Engineers** – <https://www.martinmartin.com/>

Martin/Martin Consulting Engineers is a full-service civil and structural engineering and surveying firm, operating from Colorado since the 1940s. Growing steadily over the last decade, Martin/Martin is about exciting projects, shared ownership, informed staff and a commitment to quality that keeps clients returning to us time after time. Our services are provided to municipalities, public and private

redevelopment entities, architects, homebuilders, state and federal agencies, land developers and special districts in Colorado, across the United States and in other countries.

**Merrick & Company** – <https://www.merrick.com/>

Merrick & Company, an employee-owned, multi-discipline professional engineering, architecture, surveying, and geospatial solutions firm, serves domestic and international clients in the energy & chemicals, national security, life sciences, and infrastructure markets. The firm maintains a Corporate Responsibility (CR) program that ensures a continuing contribution to the communities in which it works. The program balances the stewardship of communities, environment, and business through four major areas: Clean Water4Life, STEM Edge, Community Service, and Community Improvement. The firm maintains 20 offices in the U.S., Canada, Mexico, and the United Kingdom.

**MKK Consulting Engineers Inc.** – <https://www.mkkeng.com/>

As a leader in the engineering design and consulting business for over 58 years, MKK specializes in mechanical, electrical, plumbing, architectural lighting, commissioning, energy modeling, security, fire protection, building informational modeling, sustainable design and building assessments. Dedication to our clients and a passion for preserving the environment are reflected in our mission, vision, and values: Consult More. Consume Less. We serve clients throughout the US from our headquarters in Colorado and branch offices in Montana, Wyoming, Utah, and Internationally from Bogota, Colombia.

**RMH Group** – <http://www.rmhgroup.com/>

The RMH Group is a mechanical, electrical, and industrial process engineering firm located in metro Denver, Colorado. For over 50 years, we have served municipal, state, federal, and private-sector clients on new and renovated buildings and infrastructure. Project types include higher education, laboratories, data centers, central plants, healthcare, recreation, justice/corrections, vehicle maintenance, water/wastewater, and manufacturing, RMH offers an array of services to meet our clients' sustainable/low-energy needs including planning, design, LEED consulting, ENERGY STAR consulting, energy modeling, and lighting/daylighting modeling.

**Samuel Engineering Inc.** – <https://www.samuelengineering.com/>

Samuel Engineering, Inc. (SE) is a full service, multi-discipline, project development and execution company. Our staff has an average of 22 years of experience and many of our key personnel have been continuously working together on projects for the past 25 years. We exist to provide solutions to our clients' challenges.

**Stanley Consultants** – <http://www.stanleyconsultants.com/>

Stanley Consultants is a consulting engineering firm recognized in the engineering industry for our commitment to client service and our passion to make a difference. With a focus on energy, water, transportation and the environment, we bring global knowledge, a century of experience, and multi-disciplinary capabilities to serve our private and public clients. Throughout its history, Stanley Consultants' success has been a result of its member expertise, flexibility and willingness to "go where our clients need us." As a result, we are proud to have performed work in all 50 states, U.S. territories and in 118 countries. Collaborating across the company, we field the best team to serve our clients. Connect with us in offices located across the United States and throughout the world. We are ready to serve you from within your own community.

**Stantec** – <https://www.stantec.com/en>

Stantec provides professional consulting services in planning, engineering, architecture, interior design, landscape architecture, surveying, environmental services, project management and project economics for infrastructure and facilities projects. Stantec believes that communities are fundamental. Stantec designs with community in mind because they realize that communities provide a foundation, and a sense of place and belonging. Stantec maintains their position as a top-tier global design and delivery firm. Stantec's local strength, knowledge and relationships coupled with their world-class expertise have

allowed them to go anywhere to meet their clients' needs.

**Terracon** – <https://www.terracon.com/>

Terracon is a 100 percent employee-owned consulting engineering firm providing quality services to clients. Since 1965, Terracon has evolved into a successful multi-discipline firm specializing in environmental, facilities, geotechnical, and materials services. Terracon has achieved significant expansion through both internal growth and acquisitions. Terracon currently has more than 4,000 employees in more than 140 offices nationwide. Additionally, we partner with our U.S. clients to serve their international needs. Terracon's growth is due to dedicated employees who are responsive to clients, provide quality services, and take advantage of opportunities in the marketplace.

**Tetra Tech** – <http://www.tetrattech.com/>

Tetra Tech is a leading provider of consulting, engineering, and technical services worldwide. Our reputation rests on the technical expertise and dedication of our employees—16,000 people working together across disciplines and time zones to provide smart, sustainable solutions for challenging projects. We are proud to be home to leading technical experts in water, environment, infrastructure, resource management, energy, and international development. Tetra Tech combines the resources of a global, multibillion-dollar company with local, client-focused delivery in 400 locations around the world. We offer competitive compensation and benefits and are searching for innovative people to join our teams.

**CONSTRUCTION COMPANIES**

**FCI Constructors Inc.** – [www.fciol.com](http://www.fciol.com)

FCI Constructors began building in Colorado in 1978, expanding to Arizona and the surrounding region in 1986. Since 1998, FCI has been recognized as one of ENR's Top 400 Contractors with revenues exceeding \$400 million. As one of the most versatile General Contractors and Construction Managers, with nine offices in Colorado, Arizona, New Mexico, North Dakota, Oklahoma and Wyoming, and nearly 400 employees, we dedicate ourselves to serving our clients. Our employee-owners take pride in what we do, and for our clients – we are focused on your vision – to ensure smooth transitions from building concept to project completion.

**GE Johnson Construction Co.** – [www.gejohnson.com](http://www.gejohnson.com)

In January 1967, Gilbert E. Johnson founded GE Johnson Construction Company, Inc. to create a better way to build. His vision went beyond competent construction and focused on delivering both unmatched results and a remarkable project experience. This combination has resulted in strong, lasting partnerships, evidenced by the vast majority of our business stemming from repeat clients. To date, GE Johnson has completed more than \$8 billion in construction projects across 14 states and has won numerous awards in the industry and the communities in which we work. In addition to our headquarters in Colorado Springs, Colorado, GE Johnson maintains offices in Denver and Vail, Colorado; Casper and Jackson, Wyoming; and Oklahoma City.

**GH Phipps Construction Cos.** – [www.GHPhipps.com](http://www.GHPhipps.com)

GH Phipps is an employee-owned full-service Construction Manager/General Contractor. Average revenues over \$235 million make GH Phipps one of Colorado's largest contractors and one of the nation's top 400 contractors since 1985. Corporate headquarters are located in Greenwood Village, Colorado with branch offices in Colorado Springs, Colorado, and Fort Collins, Colorado. GH Phipps Construction of Wyoming is based in Laramie, Wyoming.

**JE Dunn Construction Co.** – [www.jedunn.com](http://www.jedunn.com)

JE Dunn Construction Company is family and employee owned and has been a leader in the commercial construction industry since 1924. Headquartered in Kansas City, Missouri, JE Dunn has 20 offices nationally and employs over 2,500 employees. The Company provides General Construction/CM @ Risk,

Construction Management - Agency, and Design-Build Services. In Engineering News-Record (ENR) magazine's Top 400 Contractors survey, JE Dunn is ranked consistently among the top contractors nationwide in several specialty areas. Environmentally conscious in its building practices, JE Dunn furthered its commitment to sustainability through its "Think Green, Build Blue" initiative. This internal program addresses the vital role played in the wise stewardship of resources from within the construction industry. And environmental stewardship is something we take very seriously. At JE Dunn, "Think Green, Build Blue" is more than a motto, it is a way of life.

**Mortenson Construction** – [www.mortenson.com](http://www.mortenson.com)

Serving Colorado for more than 30 years, Mortenson Construction is a U.S.-based, family-owned construction company. Founded in 1954, and recognized as one of the nation's top builders, Mortenson provides a complete range of services, including planning, program management, preconstruction, general contracting, construction management, design-build, and turn-key development. Mortenson has offices in Denver, Minneapolis, Seattle, Milwaukee, Chicago, Phoenix and Portland with international operations in Canada and China.

**Neenan Archistruction** – [www.neenan.com](http://www.neenan.com)

Archistruction is a disruptive force in the real estate industry that provides people with total responsibility and accountability. This is the opposite of our industry that's full of contracts and theories to shed risk and protect individual interests. You will work with an integrated team of development, design, and construction professionals to transform your vision into reality. Archistruction is an experience and we want to share it with you.

**PCL Construction** – [www.pcl.com](http://www.pcl.com)

PCL is a group of independent construction companies that carries out work across Canada, the United States, the Caribbean, and in Australia. These diverse operations in the civil infrastructure, heavy industrial, and buildings markets are supported by a strategic presence in 31 major centers. PCL is 100% employee-owned.

**Saunders Inc.** – [www.saundersci.com](http://www.saundersci.com)

Saunders Construction is one of the most respected commercial builders in the Rocky Mountain region. Saunders is recognized for commitment and focus that help turn ideas into projects and projects into landmarks. The culture Dick Saunders established in 1972 is one of personal integrity and open communication, and the organization continues to embody that spirit at every level. We honor all commitments. We meet tough deadlines. Our ability to consistently meet or exceed the goals of the project team creates a responsive client relationship—building confidence one job at a time.

**Skanska USA Civil** – [www.skanska.com](http://www.skanska.com)

We are one of the world's major project development and construction groups. By combining our expertise and financial strength, we develop offices, homes and public-private partnership projects. We create sustainable solutions and aim to be a leader in quality, green construction, work safety and business ethics. Our aim is naturally also to maximize the potential of Skanska with regard to returns. We are active in selected home markets in Europe and North America. Our history began in 1887 when the company was founded. We established our first international operations already in 1897. Today, we employ around 43,000 worldwide. Skanska is headquartered in Stockholm, Sweden and listed on the OMX Nordic Exchange Stockholm. We are a Fortune 500 company and a member of the UN Global Compact. Skanska is one of the world's ten largest construction companies.

**The Weitz Company** – [www.weitz.com](http://www.weitz.com)

The Weitz Company is a leading, national general contractor, design-builder and construction manager. Our nationwide staff provides construction expertise in three core product lines: Commercial, Industrial and Supply Chain. Founded in 1855, The Weitz Company serves all 50 U.S. states out of its nine offices across the country. As the sixth oldest A/E/C firm in the United States, Weitz has forged its reputation on

constantly seeking new construction innovations and technologies that provide clients with predictable, reliable and collaborative services. Headquartered in Des Moines, Iowa, Weitz annually ranks in the top tier of Engineering News-Record's Top 400 Contractors and Building Design+Construction's Giants 300 Contractors lists. The Weitz Company is a wholly owned company of Orascom Construction.
