Why an Entrepreneurship Minor?

Our Entrepreneurship Minor is designed to give you the tools to build and be a part of a successful start-up business, whether that be as a founder, co-founder, principal employee or new hire. As one of the fastest-growing business segments in the country, you'll find a number of opportunities including scholarships, networking, and mentoring through the Jake Jabs Center for Entrepreneurship.

Important GPA Requirements

- Students must take 9 of the 15 hours of required business courses in the minor while in residence at the University of Colorado Denver. If a student has already taken the equivalent of one or more of these courses at another university, other higher-level business courses may be substituted with the approval of the Business School.
- Students must maintain or exceed a 2.0 GPA to graduate with the minor.

How to Declare

Complete the below minor declaration form online:

- Business Majors: Here
- Non-Business Majors: Here
