

Why an Information Systems Minor?

In the modern business environment, companies survive on how well they utilize their information systems and technology. A minor in Information Systems will help you develop the technical skills, business know-how, and administrative insights to help you make decisions on the acquisition, implementation, and management of technology.

Important Requirements

- As a CU Denver undergraduate student, you need a 2.0 GPA to be accepted for an Information Systems minor.
- Students must maintain or exceed a 2.0 GPA to graduate with the minor.
- A student must take 12 of the 15 hours of required business courses in the minor while in residence at the University of Colorado Denver. If a student has already taken the equivalent of one or more of these courses at another university, other higher-level business courses may be substituted with the approval of the Business School.
- Students must have declared the Information Systems minor to register for any of the upper-division Business School courses or petition separately to take each of these courses.

How to Declare

Complete the below minor declaration form online:

- Business Majors: [Here](#)
- Non-Business Majors: [Here](#)
