**Rio Tinto** – <http://www.riotinto.com/>

As pioneers in mining and metals, we produce materials essential to human progress. Aluminum and copper, diamonds, gold and industrial minerals, iron ore, coal and uranium: our materials make up the world around us. You'll find them in smartphones, planes, cars, hospitals and throughout your home. We operate with pioneering spirit. We've developed some of the world's largest and best quality mines and operations, and our people work in around 35 countries across six continents. We've pioneered technological innovations, such as our Mine of the Future™ program and our low-CO2 aluminum from hydropower. And we've paved the way in areas such as safety, tax transparency and legacy management. We continue to pioneer progress for a better future. Through research and innovation, we're helping meet the needs of society in a growing and changing world. We produce essential materials responsibly. Our activities help economies grow and communities prosper. And it's all underpinned by an absolute commitment to safety – for our people, contractors, and the communities in which we operate – and to minimizing our environmental impact.
