

PROGRAM OVERVIEW

This major provides an understanding of the fundamental theory and practice pertaining to finance in order to make sound financial decisions. Students are taught to think logically about financial problems so they can formulate and implement value maximizing decisions and policies. Students learn the importance of monetary systems, credit, prices, money markets, and financial institutions.

ACADEMIC ADVISING

It is recommended that students meet with an advisor regarding their individualized degree plan at least once per year.

SAMPLE ACADEMIC PLAN OF STUDY

The following academic plan is a *sample* pathway to completing degree requirements. This schedule can be adjusted to accommodate AP, IB, and/or CLEP credits, as well as courses taken during the summer sessions. Students should tailor this plan based on transfer credit, course availability, and individual preferences related to course load, schedules, and add-on programs such as minors or double-majors. Students must complete an experiential learning credit (internship, study abroad program, or project-based course) and a capstone course taken in their final semester. **This plan assumes that the foreign language graduation requirement has been completed with high school courses or proficiency exam.**
